Profile

Backend engineer with seven years of experience building payment and billing services. I like small, well-tested services and clear documentation.

Work Experience

Senior Backend Engineer
Northwind Payments · Cluj-Napoca, Romania
Mar 2021 – Present

Own the billing service used by 40 merchant integrations.

- Cut invoice generation time from 11 minutes to 90 seconds by moving it to a queue-based worker.
- Led the migration from a single PostgreSQL instance to a primary with two read replicas.
- Mentored three junior engineers through their first production releases.

Backend Engineer
Brightloop · Remote
Sep 2018 – Feb 2021

Worked on the subscription platform for a mid-size software company.

- Built the webhook delivery system with retries and a replay tool for support.
- Reduced failed payments by 18% by adding smarter retry timing.
